

# Gay Men Spiritual Retreat Transformation & Gay Spirituality

**Christian de la Huerta**

June 17–19  
Weekend Workshop

2011

How do we, as gay men, discover our innate sacredness as spiritual beings? And, how do we express our own gay spirituality?

In this retreat, guided by award-winning author Christian de la Huerta, scholar Toby Johnson, clairvoyant studies teacher Brett Cobb, and spiritual medium and healer James Philip, we explore diverse archetypes to discover our highest self and gain a deeper understanding of who we are and our place in the cosmos.

Through lecture and discussion, meditation techniques, transformational breathwork, and guided visualization, we dive into ourselves, creating opportunities for deeper self-acceptance, personal integration, empowerment, and balancing the masculine and feminine aspects of our being.

This transformative and spiritually-affirming retreat includes opportunities in small group and one-to-one interaction for reflection, relationship building, and personal growth, as well as insight and transcendence in shared practice.
